

## The race is on to acquire top talent in healthcare IT. Find yours with the **HIMSS10 HIT Employment & Career Guide,**

*Brought to you by HIMSS JobMine & Healthcare IT Job Spot*

The American Recovery and Reinvestment Act (ARRA) has been a major contributor in the spike in senior IT executive recruitments at hospitals and healthcare systems, according to a national executive search expert. The ARRA's requirements for incentives are bringing the importance of senior IT executive positions to the forefront of hospital boards and administrations.

National executive search firms are seeing more searches for senior IT executives in the healthcare industry now more than at any time in the last 15 years.

**Put your open positions, recruitment services, higher education programs, training services, corporate image message and more in front of influential HIMSS10 attendees!**

The **HIMSS10 HIT Employment & Career Guide** will provide attendees with news coverage about employment and advancement in the area of healthcare IT, as well as an outlook for 2010. Including your advertising in this targeted publication will ensure that HIMSS10 attendees know about the latest position openings, workplaces, training, education programs and recruitment services, so that they can move their careers forward in this new decade.
